-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 06 April 2004 and 28 June 2004.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

DETAILED ACTION***Information Disclosure Statement***

The information disclosure statement (IDS) submitted on April 6, 2004 was filed in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

Drawings

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the seat cushion and seat back cushion must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New

Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 2-4,6-8,10-12, and 14-16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 2-4,6-8,10-12, and 14-16 recite the limitation "the invention" in line 1. There is insufficient antecedent basis for this limitation in the claim.

With claims 4,8,12, and 16, there appears to be positive recitation between the combination of the seat assembly and the vehicle floor with these claims. However, the preamble in the independent claims indicates only the subcombination of the seat assembly. Please clarify.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Art Unit: 3636

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-16 are rejected under 35 U.S.C. 102(b) as being anticipated by Eschelbach et al (#6,234,553).

Eschelbach et al show a split folding seat assembly comprising a pair of seats (22) comprising a pair of seat cushion frames being movably mounted by their front edges to a pair of legs (42), the pair of seat cushion frames having rear edges movably mounted to a corresponding pair of seat back frames by pair of seat folding links. A seat cushion lies on top of the seat cushion frame. Two pair of seat legs having one end of each of the two pair of seat legs are mounted to the front edge of each of the seat cushion frames and the other end of each of the two pair of seat legs are moveably mounted to a floor. Each of the seat back frames has a head restraint mounting member and a seat back cushion.

With claims 2,6,10, and 14, one of the seat back frames has an additional head restraint support member.

With claims 3,7,11, and 15, a storage compartment is provided.

With claims 4,8,12, and 16, the seat assembly is mounted on a vehicle floor.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Martin et al, Flory et al, Lombardi, Hecht et al, and Seibold are cited as showing similar types of seat assembly.
